

# NEVADA NASA EPSCoR

## REQUEST FOR PROPOSALS: Research Infrastructure Development Seed Grant

### Announcement for faculty at:

University of Nevada, Las Vegas; University of Nevada, Reno; Nevada State College;  
College of Southern Nevada; Great Basin College; Truckee Meadows Community  
College; Western Nevada College; Desert Research Institute

**Applications must be submitted by:  
Monday, March 6, 2023; 5:00 pm PT**

Please note that this solicitation has had a high funding rate.  
**Period of Performance: August 1, 2023 – May 31, 2024**

**Tips & Q/A Meeting: Tues, Dec. 6, at 2:00 pm PT:**

[Click here to join the meeting](#)

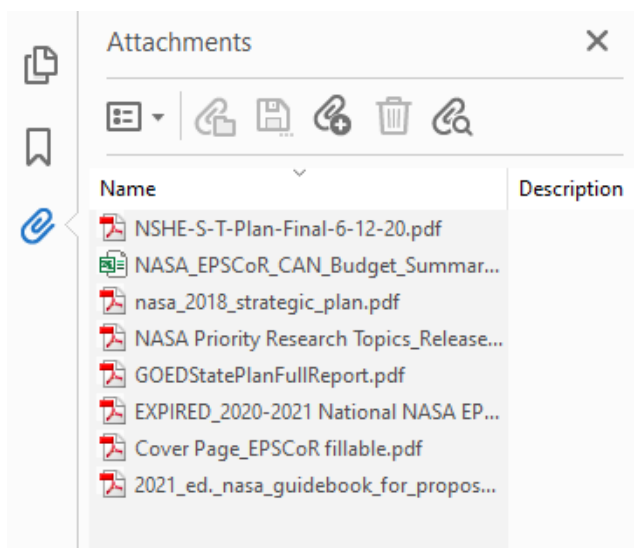

**Please note this webinar will be recorded and made available on the NV NASA Programs website. Email [mlujan@nshe.nevada.edu](mailto:mlujan@nshe.nevada.edu) if you have any trouble with the meeting link.**

**NOTE: Please open this document in Adobe Acrobat to view attached paperclip resource files relevant to this solicitation.**

**NV NASA EPSCoR Research Infrastructure Development (RID)  
Cooperative Agreement #:  
80NSSC22M0037**

## Paperclipped Attachments

Please note, to view all relevant attachments to this solicitation including the budget summary, cover page, NASA Mission Directorates, etc., please open this PDF document in Adobe Acrobat and select the paperclip on the left-hand side of the screen (you may need to click the arrow to expand the panel where the paperclip is located). Any questions regarding the paperclip attachments or on how to access these documents can be directed to Michael Lujan at [mlujan@nshe.nevada.edu](mailto:mlujan@nshe.nevada.edu).

## INTRODUCTION

The goal of NASA's Established Program to Stimulate Competitive Research (EPSCoR) is to develop academic research enterprises that are long term, self-sustaining and nationally competitive for non-EPSCoR dollars. The following are the specific objectives of the NASA EPSCoR program in Nevada:

- Improve the capabilities of Nevada faculty to gain support from sources outside the NASA EPSCoR program that are most relevant to NASA missions as defined by the NASA 2022 Strategic Plan, one or more of the four Mission Directorates and/or one or more of the ten NASA centers. The attached list of research priorities from the National NASA EPSCoR Project Manager is the primary source of current information on NASA research priorities.
- Contribute to the overall research infrastructure, science and technology capabilities, higher education, and/or economic development of Nevada;
- Develop partnerships between NV research facilities, NASA Centers, and industry;
- Work in close coordination with the NASA Space Grant program, as applicable, to improve the environment for STEM education in Nevada.

The programmatic focus is to further engage and utilize Nevada's unique resources and talent for enhancing scientific discovery and/or developing new technologies to address NASA's research priorities. The request for seed grant funds may be based on outcomes from prior workshops/meetings with NASA Personnel; however, a seed grant award should not augment existing funded research projects. Research Infrastructure Development (RID) activities should target unique activities that increase Nevada's competitiveness.

The seed grant proposals must result in the submission of a new proposal to a NASA or relevant program, and be designed for activities that accomplish one or more of the following:

- Initiate inter- or multi-disciplinary activities;
- Create critical mass or expertise on topics of strategic interest to NASA and Nevada; and/or
- Engage NASA scientists from one or more NASA Centers.

Note: There is no requirement to collaborate with other NSHE institutions nor that funds be used to support student participation, although it is allowable. Any student support should be

fully explained in the project description.

**A web-based meeting (MS 365 Teams) will be held to provide an overview of NV NASA EPSCoR RID Seed Grant and NVSGC Research Infrastructure solicitations, tips on proposal preparation and Q&A. The meeting will be held on Tuesday, December 6, 2022, at 2:00 pm (PT). Please note that this webinar will be recorded and will be made available on the NV NASA Programs website. Email [mlujan@nshe.nevada.edu](mailto:mlujan@nshe.nevada.edu) if you have any trouble with the meeting link.**

## **PROPOSAL INFORMATION AND INSTRUCTIONS**

### **Eligibility**

- Faculty within any Nevada System of Higher Education (NSHE) Institution, particularly junior faculty, women, and members of other underrepresented populations are encouraged to apply.
- Faculty receiving direct funding **do not have to be U.S. citizens.**
- Faculty who currently have a NVSGC research infrastructure or NASA EPSCoR research sub-award/grant are not eligible until after the end of their project.
- **Faculty may only apply to the NVSGC Research Infrastructure or NV NASA EPSCoR RID Seed Grant solicitation, but not both during the same solicitation year.**

### **Award: Funding Information**

Depending on available funds, it is anticipated that 3 projects will be awarded. Project total should not exceed \$33,666 inclusive of institutional indirect costs. Each submitted proposal must include budgets signed by the Sponsored Projects Office or Business Managers from the lead institution and any collaborating NSHE institutions with the amount of the collaborators total budget listed under 1.A. Subcontracts on the NSHE budget form for the lead institution.

Awards will be made to the lead PI and then their institution will sub-award funds to any collaborating NSHE institutions. It is expected that each institution involved in a project will receive Federal funds. Please note that potential delays in Congressional appropriations and release of funds may result in late sub-awards. We currently anticipate making sub-awards during Summer 2023. Proposed project period may start on August 1, 2023 and extend through May 31, 2024.

**Note: The above budget guidance for this solicitation was amended to correct an error on February 27, 2023.**

### **Deadline:**

The deadline for application submission is 5:00 pm Pacific Time, on Monday, March 6, 2023. Only applications for which all required materials have been received will be reviewed. Incomplete or late applications will NOT be reviewed.

### **Award Obligations**

Award recipients are required to prepare a progress and final report following NASA EPSCoR

guidelines. Detailed reporting requirements will be provided with award notification. Note: You will be required to prepare a progress report in April, a final report at the end of the project, provide demographic data about participants and prepare a project highlight for inclusion in an annual NASA EPSCoR Congressional report. Failure to report will may result in a period of ineligibility for future sub-awards from NV NASA EPSCoR and NV Space Grant.

Award recipients are also expected to attend and make a presentation at the annual NV NASA Programs Statewide Meeting that alternates between northern and southern NV. Travel for this meeting should be included in your budget.

### **Proposal Guidelines**

Proposals must be typed, single-spaced, and use a Times New Roman 12 pt. **or similar** font with numbered pages and 1-inch margins. The proposals should be written such that faculty from any STEM discipline would be able to understand the proposal goals, importance of the research and how the anticipated outcomes will benefit NASA, NV and NSHE. Review panel members will not have specific expertise within the topic area of each proposal submitted.

#### **1. Cover Page (form provided as “paperclip” attachment to this solicitation)**

- Signature of Applicant
- Signature of Office of Sponsored Projects/Programs

#### **2. Project Description (limited to 5 pages)**

Provide a concise description of the proposed research or research-building activities, including the following:

- a. Title
- b. Summary of Project (300 words);
- c. Project goals, objectives and methods (tasks);
- d. Anticipated project products, i.e., publications, proposals, hardware, software, websites, etc. Specifically list anticipated future proposal(s) resulting from the project;
- e. List of collaborators and expertise they will contribute (including any NASA scientists). If applicable to the proposal, letters of support/collaboration should be included. Letters must be recent and dated within 45 days of due date;
- f. Description of how the effort will contribute to the NSHE Science and Technology Plan 2020 (attached) and/or the State of Nevada’s Economic Development Plan (attached) respectively; and
- g. Description of how the effort will align with either or both the research priorities provided by the National NASA EPSCoR Program Manager (attached) and the NASA Strategic Plan 2022 (attached). Clearly state how your proposed project is relevant to a NASA mission(s). Inclusion of a NASA collaborator is strongly encouraged and will be reviewed favorably.

#### **3. Budget and Budget Justification**

Faculty, students and NSHE personnel may request funds for salary, travel, materials and supplies and other resources necessary to successfully complete the proposed project.

The budget must be completed using the attached NSHE excel form. All dollar amounts must be discussed in the budget justification. Direct labor costs should be subdivided and listed by individual and/or titles or disciplines with hours, hourly rates, and total amounts of each. Proposed travel should include the number of trips, destination, duration, etc. The

budget must include applicable F&A (indirect costs) for your institution. All budgets must be signed by the applicant institution's Business Office/Office of Sponsored Projects. *If selected for funding, final budgets will be reviewed and if necessary, the PI may be asked to consider a funding reduction based on the availability of funds.*

All reasonable costs are allowable with the following exceptions:

- a. No foreign travel may be charged under this award without prior approval.
- b. No equipment may be purchased without prior approval; (standard computer equipment purchases are prohibited). Purchase of any telecommunications equipment produced by Huawei Technologies Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company or any subsidiary or affiliate of those entities or any entity owned or controlled by or connected to the government of the People's Republic of China (PRC) is unallowable.
- c. Funds may not be used for construction or remodeling of facilities.
- d. NASA civil servant (employee) salary coverage is not permitted.

**4. NASA Funding History (limited to one page)**

Provide a detailed list of previous & current NASA funded projects (particularly projects funded by NV Space Grant and NV NASA EPSCoR) for the lead PI. Include the title of the project, the project period, the funded amount, project outcomes and if a final report was submitted.

**5. References/Citations**

No page limit.

**6. Biographical Sketch or Curriculum Vitae**

Limited to two pages per person, including the PI and Co-PI(s) who have a major role in the project.

**7. Letters of collaboration from NASA Centers or industry (if applicable)**

Any NASA collaborators must provide letters of support and specifically state the contribution they will make. Letters must be recent and dated within 45 days prior to the solicitation due date.

**Submission Guidelines:**

Proposals will be accepted until **5:00 pm PT, on Monday, March 6, 2023**. Proposals must be submitted by the institution Sponsored Programs Office or appropriate Authorized Official. Upload your proposal using the online form as one PDF document at:

<https://nasa.epscorspo.nevada.edu/funding/2023-rid-seed-grant/>

The pdf application document should be specific to each applicant and labeled: **PI Last Name\_First Name\_RID**. Submissions that are incomplete will not be reviewed and no late submissions will be accepted.

All required submission forms are “paperclip” attachments to this solicitation. Open using Adobe Acrobat to be able to see all attached files.

**EVALUATION AND AWARD CRITERIA**

The screening and selection process will include an internal NSHE faculty review panel (a minimum of three faculty, one each from DRI, UNLV and UNR) that will focus on the following

criteria:

- Quality of the research proposal as evidenced by:
  - a. Well defined research goals/objectives and statements about the importance of the proposed research
  - b. Clearly defined methods that adequately address the objectives
  - c. Demonstrated ability of faculty to conduct the anticipated work and submit timely final reports and/or peer review publications
  - d. Anticipated products and/or outcomes are defined; including publications, presentations and proposal development plans are addressed.
  - e. The proposal is written so that individuals from any STEM background can readily understand the importance of the research and that the methods will adequately address the project goals and/or objectives.
- Alignment with NASA Mission Directorate/Center research priorities or NASA Strategic Plan goals. NASA relevance is particularly important and should be clearly defined.
- Clear benefits to enhancement of NV's STEM research infrastructure and alignment with NSHE Science and Technology and Nevada's Economic Development Plan.
- Budget is appropriate for scope of work and a detailed budget justification is provided.
- NASA support/collaboration is well defined with NASA letter defining level of support.
