

2024-25 Nevada NASA Space Grant Awardee

Michael Martin is the recipient of the 2024 Nevada NASA Space Grant Undergraduate Scholarship. Mr. Martin is thrilled about receiving this NASA award, as he aims to leverage his technical skills in computer science to develop advanced machine learning models applied to Earth sciences. Inspired by NASA's missions in exploration and technological advancement, Mr. Martin is enthusiastic about making meaningful contributions and collaborating with the world's leading scientists toward the progress of science and technology. Mr. Martin is pursuing a major in Computer Science & Engineering at the University of Nevada, Reno (UNR) with an expected graduation in May 2025.
